BANDITS LOOT TRAIN

Great Northern Oriental Limited Held Up.

SECURED REGISTERED MAIL

They Missed Main Express Safe, But Cracked One that Was Empty—The Company Offers Reward of $10,000 for Their Capture.

St. Paul, Sept. 14.—General Manager Elliott, of the Great Northern Express company, announced Thursday that the Great Northern Oriental limited train, No. 1, which left St. Paul Tuesday morning, was held up by two masked men six or seven miles west of Rexford, Montana.

The robbers crawled over the tender at this place, and at the point of their guns, commanded the engineer to stop the train. They then ordered the engineer to go back with them to the express car, and instructed him to tell the express messenger, mail clerk and baggageman to go back into the coaches.

While this was being done, the robbers kept up a continual fusillade of their guns to terrify the passengers and keep them within the cars.

After the messenger, baggagemaster and mail clerk had left their cars, the robbers went through the mail cars and robbed the sacks of a large quantity of registered mail. Then they went into an express car which carried an overflow of mail and baggage and express, and which contained a regular through safe. After exploding three charges the safe was opened and found to be empty. The robbers did not enter the regular express car in which the messenger had been riding. Finding the safe empty, the highwaymen helped themselves to the registered matter, after firing a parting volley, departed.

In view of the fact that the Great Northern Express company did not suffer any loss, the Great Northern Railway company has telegraphed the following offer of a reward to all points in the west along its lines:

"The Great Northern Railway company will pay $5,000 for the arrest and conviction of each of the persons engaged in the hold-up of its train near Rexford, Mont., on the morning of Sept. 12, 1907. F. E. Ward, general manager."

This means a reward of $10,000 to those who arrest and secure a conviction of the robbers.

MOTHER'S PATHETIC APPEAL.

Wants to See Son, Who Is in Jail at Macon, Ga.

Macon, Ga., Sept. 14.—A letter reaching the hands of the police here reveals that Charles Gardener, a prisoner in Bibb county in jail, has a mother in a dying condition in Jacksonville. The letter was sent in the hope of locating the missing boy, who, it is said, has not let his mother know of his whereabouts in the past eight years. Her appeal was a pathetic one and led the officers to make a search, which revealed the son in the county jail.

He is being held as a federal prisoner upon a charge of having cashed a money order under an assumed name. He will probably be held for the action of the federal grand jury at the October term of the United States court here.

MADE STEADY PROGRESS.

Building Operations in the South and Southwest During August.

Baltimore, Sept. 14—In this week's issue of the Manufacturers' Record says:

Southern and southwestern building operations made steady progress last month, although the cost of material and of labor together with other conditions affected construction work to some extent in certain localities.

In Chattanooga, Tenn., 174 building permits were issued during the month representing an expenditure of $70,760.

Building permits issued at Nashville, Tenn., during the month call for an expenditure of $185,706. As compared with July, these figures show an increase of about $4,000. Sixty permits were issued in Austin, Tex., representing an expenditure of $69,270, of which amount about $55,000 are for residences. In Galveston 25 permits were issued representing an expenditure of $25,200, and making a total of 351 permits for the fiscal year and an expenditure in that period of $369,164. A statement of the building inspector of Baltimore shows that 121 permits were issued during August for improvements to cost $651,578, making a total for the eight months of 1907 of $4,555,498. The activity in building at Baltimore is matched by that at New Orleans, where several millions of dollars are represented in buildings finished during the past year, now in course of construction or definitely planned. At Louisville, Ky., permits were issued during the year ended Aug. 31 to the number of 2,869, representing a total cost of $3,594,072.

BOOTH LEAVES ENGLAND.

Salvation Army Crowded Station to Witness His Deprture.

London, Sept. 14—Men and women wearing uniforms of the Salvation army filled the Euston railroad station here Friday morning, a large party having assembled to bid farewell to General Booth, who left London for Liverpool, where he will embark on the Allen line staemer Virginian for Quebecc, in which city the veteran commander will begin a campaign which is to extend over Canada and the United States. From the railroad car he handed the reporters a message as follows:

"Once more goodby, dear old England. I leave your shores on what I believe is the Master's business. As I contemplate the future I rely more than ever on the old panacea for lessening the ruins, in equalities and tyrannies of the world, namely, the renegeration of the individual by the power of God."

Commissioner Nichol, Colonel Lawley, and Brigadier Cox accompanied General Booth to Canada.

SWORD DUEL ARRANGED.

French Editor and Physician to Meet on Field of Honor.

The men are Dr. Dupuz, a physician, and Mazier, an editor. The trouble arose over an article in Mazier's newspapers, the result of political differences.

Dr. Dupuz has challenged Mazier to fight with swords, and the latter who is now ill, has promised to fight as soon as he gets well.

M. Mazier was mayor of St. Pierre for eighteen years and wears the cross of the Legion of Honor of France, with which he was decorated in 1889.

FIRED AT AUTOMOBILE

Fright Given Gov. Beckham's Wife and Other Ladies.

THEIR MOTOR CAR HELD UP

By a Farmer, Who Denounced Fast Motoring, and Then Fired Several Shots as the Car Proceeded—Ladies Sought Shelter at Bottom of Car.

Owensboro, Ky., Sept. 14.—Dan Ruxter, a farmer, has been indicted on the charge of having discharged a pistol at an automobile containing Mrs. J. C. Beckham, wife of the governor of Kentucky, and a party of friends.

Mrs. Beckham, who was an Owensboro girl, was visiting friends. The farmers in this vicinity have been complaining of the speed of the machines on the highways and when the motor containing Mrs. Beckham reached a bridge on a much coveted thoroughfare, a man on horseback demanded that the chauffeur stop.

The horseman flourished a pistol over his horses "for the driver of the automobile to wait several minutes' while he denounced the automobilists in bitter terms.

When the machine started he fired several shots and Mrs. Beckham and the other women dropped to the bottom of the car for protection.

NEW ORLEANS MAKES PROTEST.

Discrimination by Illinois Central and Other Roads Alleged.

Washington, Sept. 14.—In a petition filed Thursday with the interstate commerce commission, the New Orleans board of trade, the New Orleans Lumber Exporters' association and the National Lumber Exporters' association complain that the Illinois Central railroad and other railroads entering New Orleans are discriminating against the members of the complainants associations in allowing only ten days of storage on forest products and cotton seed products shipped on local bills of lading, while they allow unlimited storage periods on the same products shipped on through bills of lading from point of origin to point of destination.

The complainants ask the commission to make an order regulating fairly the matter of storage on local bills of lading and preventing the discrimination complained of, which is alleged to be of serious disadvantage to New Orleans.

CHARGE HIGH TREASON.

Fourteen Arrests Have Been Made at Coblenz, Prussia.

Coblenz, Prussia, Sept. 14.—Further arrests have been made in connection with the extensive betrayal of military secrets previously referred to in these dispatches.

There are now fourteen persons in custody, of whom twelve, including four civilians, one of whom, it is said, belongs to the nobility, will be charged in the closest confinement.

The two persons who will not be arraigned on the charge of high treason will appear as witnesses for the state, but they will not be released before the trial, which will probably be held in secret.

Many Skilled Workmen Laid Off.

Atlanta, Sept. 14.—One hundred and fifty men, four-fifths of whom are trained workers, men who have served a long apprenticeship and who are earning an excellent grade of pay every day, walked out of the Southern shops in South Atlanta Thursday afternoon, carrying with them an order of suspension for—how long none of them can even conjecture. The suspension came as a surprise to the workmen.

Causes Electric Sleep.

New York, Sept. 14.—Professor Stiphane LeDue, of the School of Medicine at Nantes, has discovered a method of causing electric sleep, says a Paris dispatch to the Times. It is claimed for the discovery that it will replace chloroform and other anaesthetics in all surgical operations.

BOARD VALUES SOUTHERN.

Figures Are $3,655,000 More than the Railroad Company's Returns.

Atlanta, Sept. 14.—The value of the Southern system in Georgia has been fixed at $18,539,336 by the board of arbitration, composed of Hon. Roland Ellis, of Macon, representing the road; Commissioner Stevens, representing the state, and Judge A. L. Miller, as umpire.

From this award Commissioner Stevens dissented, claiming that it was too low.

The figures were $3,655,283 over the returns of the company, and $7,869,604 under what the comptroller general had assessed the property.

A peculiar feature about the award is that the arbitrators fixed the value of the physical property of the system in Georgia at $15,066,139, or just $109,444 higher than the comptroller had assessed it, his figures being $14,956,695, while the road only returned the property at $12,052,956.

The franchise was awarded at $3,473,197, while it was returned at $2,831,997, and assessed at $11,543,305.

The total return of the corporation was $14,884,953, and it was assessed at $26,500,000.

LEAPED FROM WINDOW.

Waitress Risks High Fall to Escape Enraged Woman with Pistol.

Carutthersville, Mo., Sept. 14.—Miss Lucy Logsden, aged 24 years, leaped headlong from a third story window of the Wilson Hotel here when Mrs Arch Feaman, revolver in hand, burst open the door of her husband's room and found the young woman in his company.

As Miss Logsden lay on the sidewalk below, fatally injured, the wife pocketed her revolver, declaring to the cowering man beside her:

"It wasn't you I was after. She has punished herself now for breaking up my home."

Mrs. Feaman was arrested, but was soon released on bond.

Miss Logsden, physicians say, cannot survive her injuries. Her left leg was broken and she sueffred severe internal injuries.

Feaman, who is one of the most popular young men in Carutnersville, has been separated for several months from his young wife. Trouble arose between them because of Miss Logsden, who is a waitress.

New York, Sept. 14—The sight of E. H. Harriman and J. J. Hill, the two greatest rivals in the railroad world, walking down Pine street arm in arm, was witnessed this week.

LUSITANIA IS IN PORT

Leviathan Cunarder Has Established New Record.

AVERAGE SPEED 22.87 KNOTS

New Ship Was Decked With Flags and Bunting as She Steamed Into Port and Presented Gay Appearance with Passengers Crowding Rails.

New York, Sept. 14.—A new steamship record between a European port and New York, was made by the Cunard line's new giant turbine ship, Friday.

The Lusitania left Queenstown, the nearest trans-Atlantic port to New York, at 12:10 p. m. Sunday and arrived at the Sandy Hook lightship at 8:43 a. m. (estimated) Friday, making the time for the trip five days, one hour and 33 minutes. This is 5 hours and 50 minutes better than the previous Queenstown New York record of 5 days, 7 hours and 23 minutes held by the Lucania of the same line.

While the Lusitania has made a new record for the time a passenger is actually on board ship, she has not beaten the average speed per hour recorded, both by the Kaiser Wilhelm II, which has made 23.58 knots per hour from New York to Plymouth, and the Deutschland, with a record of 23.51 knots per hour to the city of Plymouth, having made better time the Lusitania's speed per hour on her maiden voyage is estimated at 22.87 knots per hour.

The new ship was decked with flags and bunting when she made her appearance off Sandy Hook, her four big red funnels lending color to the picture which was marred by the prevailing haze. A good sight of the beautiful vessel was had from shore for only a short while. Her passengers lined the railings and crowded the different decks of the large vessel, waving handkerchiefs and American and British flags.

The marine observatory stations on shore dipped their flags in salute, other vessels in the lower bay blew their whistles in greeting, and the Lusitania's blue ensign was constantly lowered and raised again in acknowledgement of the reception given her. She steamed slowly up the bay for the new Ambrose channel, dug especially for vessels of great draft, and which she will be the first to use in entering the port of New York.

EXPLOSION IN MINE.

Twenty Men Were Injured at Rock Springs, Wyom.

Rock Springs, Wyom., Sept. 14.—Forty men were injured, twenty seriously, by an explosion Thursday at the mouth of the third entry to mine No. 10, owned by the Union Pacific Coal company.

While a number of the injured are very badly burned, it is not expected that any of them will die.

The explosion was caused by lamps of the miners setting fire to coal dust that had been stirred up by runaway coal cars in their flight down a grade after jumping the track.

B. STRINGFELLOW SUED FOR DAMAGES

New York Firm Selected Opportunity to Serve Papers on Him.

HE WAS IN NEW YORK CITY

When It Was Ascertained That He Was Visiting the American Metropolis the Firm Against Whom He Had Secured Judgment Sued for Slander.

Information comes from New York to the effect that J. D. Stringfellow, well-known citizen and trucker of this city, has been served with papers following a suit for damages in the supreme court of the City of New York. The allegation is slander.

Mr. Stringfellow has been in New York for some time, and when Vaughn & Co. ascertained that he was visiting the city, the papers were served.

Whether or not Vaughn & Co., who are extensive seed dealers well known throughout this section, will get any capital out of this suit yet remains to be seen. Mr. Stringfellow stands here look upon the case as a joke.

It will be remembered that at the last session of the circuit court Mr. Stringfellow was the prosecutor in a case in which Vaughn & Co. were defendants, the charge being a failure to deliver seed, and his allegation that the seed company had supplied him with inferior seed. The suit was won by Mr. Stringfellow and a judgment was rendered against them for $500.

Much more was thought of this case than it had been entitled to by the press. However, the fact that the jury did not seem satisfied with the amount of the damage awarded by the jury sustaining the verdict, and the minute they learned that he was in New York the papers were served, [illegible] to appear in court.

It is not known just what the disposition of the case amounted to, but it is supposed that Mr. Stringfellow will appear to answer charges at the proper time.

ST. AUGUSTINE MISSION.

Will Be Known Under Direction of Rev. Speight.

The school of St. Augustine's Episcopal mission in this city opened its fourth school year the first Monday in September with the largest enrollment it has ever enjoyed at its opening. The school is well organized and Rev. J. Speight, the principal, and at the close of the second month's work much interest and enthusiasm are manifested by teachers and pupils, to make the school a success.

Such a mission is an important factor in helping the colored people of this country to higher planes of living, not only in their moral and Christian character along with the literary work.

The continual growth of the school is making difficult for the teachers to provide sufficient room to accommodate the pupils in the chapel, where their services are held. Therefore, the members of the mission are very desirous to secure the splendid church building, formerly occupied by the members of Holy Trinity church. They are now earnestly appealing to the charity of the citizens to aid them in raising money to transfer the building to their lot at the corner of Church and Grove streets. This effort presents to the friends of humanity an opportunity to help a good and worthy cause.

At the services which will be held in the chapel this morning at half past 10 o'clock, offerings will be made to accomplish this much needed work. All are cordially invited to attend the services.

Mother Deserts Babe.

Atlanta, Sept. 14.—By its heartless mother, left in the road to die of exposure or be run over by passing trains, a ten days' old baby boy was Thursday night, about 9:45 o'clock, found in the middle of the road near the culvert just north of Lakewood, by Inspector Watson, of the Georgia Railway and Electric Light Company, and County Officers Jordan and Cooley. The little one was handsomely dressed in lace-edged clothes of fine texture and was apparently in good health and none the worse for its exposure. It was carried to the Home for the Friendless.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. DICKINSON RAKES 'EM.

Reminds Delinquents That They Must Pay Up or Stand Consequences.

The people of Alachua county elected Capt. W. D. Dickinson as tax collector of Alachua county to do his duty, and he is doing it. That is all that could be expected of any man.

Captain Dickinson, having completed his duties in the matter of real property, is now looking after the fellow who is delinquent in the payment of taxes on his personal effects, and is pushing matters right well when it comes to collecting.

"You know I must collect these taxes," remarked Captain Dickinson Saturday, "but I can't blame a fellow much for forgetting to pay them. There was a time when I was not tax collector, and I used to forget my personal taxes. It has been many a time the collector has jogged my memory that I was in arrears.

"It is not the fault of the fellow who owns the personal property that he must be reminded of his arrears. It is just a plain act of overlooking the matter, which in the majority of instances is very small. The fellow who owns a whole lot of personal property, and his personal taxes run high, will set aside a page in his memorandum book and will attend to it, but ninety-five per cent of the ordinary fellows, who owns his little home and a few hundred dollars worth of property, does not think to meet his obligation for personal tax."

Collector Dickinson states that he has liberal responses to the postal cards he is mailing reminding delinquents of personal taxes, all of which have kept him busy for the past few days.

M'INTOSH LOST HIS WAD.

Lost Twenty Dollars from Pocket While He Was at Work.

B. B. McIntosh, a mechanic of this city who has been employed in a certain mill here, is twenty dollars poorer on account of carrying money in his pockets, so the report goes.

A friend of Mr McIntosh stated that while he was at work on Thursday or Friday someone entered the locker in which he kept his clothing, and took from his pocket what money he had with him, aggregating $20. The robbery is a mystery, but Mr. McIntosh evidently "got enough," as he has resigned his position, it is understood, and will seek employment elsewhere.

Col. CHUBB TO APALACH.

To Hold Conference With Committeeman Coombs on Important Matters.

Hon. Henry S. Chubb, register of the United States land office, left Saturday for Apalachicola, where he goes on an important mission.

Inasmuch as Apalachicola is the home of Hon. J. N. Coombs, Republican National Committeeman, and Col. Chubb is the chairman of the State Central Republican Executive Committee, both of whom have control of the helm of the Republican organization in Florida, and inasmuch as it is known that both stand very close to the President, it may be deducted that this visit will have considerable significance, as it will no doubt settle the question of who shall be appointed United States district attorney for the Northern District of Florida, made vacant by the recent promotion of Hon. W. B. Sheppard to the United States judgeship.

There are a number of candidates for this position, and they are all active. Of the half-dozen or more, it is rumored that Hon. Fred Cubberly of Cedar Key, at present collector of customs of the ports of Cedar Key and Port Englis, has some strong and influential endorsements. Col Cubberly has always been a loyal adherent to the Republican organization in Florida, as well as close personal friend to both Messrs. Chubb and Coombs.

MARTHA PERRY INSTITUTE.

Rochelle School Opened Two Weeks Ago, and Enjoying Fine Success.

Captain J. A. Tucker of Rochelle, chairman of the board of trustees of the Rochelle sub-school district, was in the city Saturday.

Chairman Tucker states that the school opened a couple of weeks ago with an enrollment of fifty-five, which will be increased to about seventy-five within the next two weeks. Prof. Jones is the principal, and he is ably assisted by Miss Alice Vause, one of the most competent teachers in the county. Miss Vause originally came from Putnam county.

Mr. Cheney Was Here.

Hon. J. M. Cheney of Orlando, United States district attorney for the Southern District of Florida, and one of the most widely known and most successful attorneys in the State, spent Friday night in this city as a guest of his friend, Hon. Henry S. Chubb.

Col. Cheney is one of the leading spirits of Orange county, and has done a great deal towards the development of that section of the country.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M. Johnson

An American Stage Beauty Saved Her Hair With
Newbro's Herpicide

She writes as follows to The Herpicide Co.:

"For the past two years I played a part that necessitated the wearing of a wig. My scalp would perspire under the wig and it was not long until dandruff made its appearance and constantly grew worse. I used every remedy I could find to rid my head of it, but all to no avail. I finally decided to give Newbro's Herpicide a thorough trial.

"I cleaned and dried my hair before applying Herpicide and after three or four applications I was delighted to see the dandruff disappear and my hair is now as nice as ever.

"I could not be without Herpicide, and can recommend it most highly and believe it will do all that is claimed for it."

Respectfully,

August Wenske is Busy.

August Wenske, the contractor, is keeping busy nowadays. Mr. Wenske has just begun the erection of a comfortable cottage for Mrs. H. H. McCreary in South Gainesville, and besides this he has many other contracts, among which is the extensive improvements and additions to the home of County Treasurer R. B. Peeler. Mr. Peeler is altering his old home considerably, and his friends will hardly recognize it as the same place when he has finished the work.

Stokes School Opening.

The opening of the Stokes school, which was to have been next Monday, the 16th inst., has been postponed until Monday, the 23rd inst., owing to the fact that a number of prospective pupils are now busy, and will not have the opportunity to attend until a week later.

The Stokes school is one of the best country schools in the county, and it goes without saying that the coming term will be a successful one.

Letter to Capt W. D. Dickinson, Gainesville, Florida.

Dear Sir: The easiest way we know of to make a little money is—if you're going to paint—to paint with the paint that takes least gallons.

Take a small job; say it takes 10 gallons Devoe, two coats; that's an average house. When the job is done and the bill comes in, it is $50; the paint, etc., $17.50; the rest is for labor and cartage; the labor is fixing the surface, shifting ladders, scaffolds, pulley and ropes, and brushing-on paint.

Take another job exactly like that; try another paint; it takes 12 gallons. The bill is $10 more. Take another exactly the same; another paint; it takes 20 gallons. The bill is $100.

There is only one Devoe; there's a dozen 12-gallon paints, and 100 that take 20 gallons to cover a 10-gallon job.

The only difficulty is finding out Devoe. After that you save work; there's less work in 10 than in 12 or 20 gallons; less paint to buy and less to brush-on and less wages to pay.

If Devoe were only a little better than others, there'd be some difficulty in finding out the difference. It goes twice as far as half the paints; that ought to be easy.

It wears longer too. You'll wait a good while, if you wait to find out how long it wears; there are thousands of people who know that the least-gallons paint wears longest.

Yours truly,
36 F. W. DEVOE & CO.

THE PACIFIC COAST TROUBLE.

There is a feature of retributive justice in the news from British Columbia last week. The Canadian government has just been treated to the biggest sort of a race riot on the Pacific coast, directed impartially toward all the Orientals who go toward making up the population of the great Northwest Territory.

One Saturday night one week ago the inhabitants of Bellingham, British Columbia, arose in their might and started a riot for the extirpation of a large colony of Hindoo coolies who lived in that section. It may be news to the average American to know that there are colonies of East Indians living on the continent, but such is the case. They are brought from India under contract to work and pay for their passage money. They are settled in the British colonies and hired out, where their work is needed, to virtually slavery. It takes about five years' work to pay for their passage, and at the end of that time they are free to go back to India or settle in the country. These were the people against whom the rioters arose. They chased them over to the American side of the line and most of the Hindoos came without waiting for the formality of passports.

Then on Sunday night the wave of anti-orientalism spread to Vancouver, and the residents wrecked the Chinese and Japanese quarters. The riot was marked with all brutality that characterizes a mob anywhere. The Japanese government has already demanded apologies and indemnities, and the mayor of Vancouver, being elected by the votes of the residents, has declined to furnish either. So the British government is decidedly "up against it," and the London papers that have been inveighing against the brutality of the anti-Japanese riots in San Francisco are hard put to it to find an excuse for their own people who have been guilty of the same sort of an outbreak. It merely shows that populations are much alike the world over, and the Oriental is not calibrated to mix with the white man.

THE IMMUNITY CASE.

There is a fight brewing that will be worth watching between the administration as represented by President Roosevelt and the Department of Justice and Judge K. M. Landis of Chicago. It is over the immunity plea of the Chicago and Alton railroad.

It will be remembered with little effort that Judge Landis was the man who imposed the $29,240,000 fine on the Standard Oil Company for taking rebates from the Chicago and Alton road. It was largely by the testimony of the Alton officials, coupled with the books of the company which were turned over to the Government, that the conviction of the Standard was secured. The officials of the Alton claimed that they had secured immunity from prosecution by aiding the Government, turning State's evidence, as it were. Judge Landis took a different view of the matter, and the road was about to be prosecuted for paying rebates when special attorney Sims, the counsel for the Government in the case, received a letter from Washington directing him flatly to grant the immunity. It seems that neither Mr. Sims nor the Judge was in favor of letting the case go in this slipshod way, and the whole matter has been held over to the 24th of this month, when the two sides will have their innings in court.

This is a matter that is more important than it seems. It is not every day that a Federal official arises and defies the President. But this virtually is what Judge Landis has done. It remains to be seen which is the stronger, the Judge or the President. The controversy has already brought Judge Landis into the public eye, much as Folk of Missouri was brought, and it would not be surprising if the matter developed into a national fight that would make Landis a Presidential possibility when the nominating convention meets.

Southern cotton mills show no sign of having lost their attractiveness as investments, says The Wall Street Journal. On the contrary, enlargement of plants, erection of new mills and installation of more machinery are the features of the news coming from that quarter. With raw cotton at present prices, more money will go into cotton mills, because this is still the chief manufacturing industry in which Southern enterprise feels itself to be master. But the growth of the industry has brought with it various other industrial problems, including such as economies in the use of power and the training of talent for their own needs. The problem of power economy is receiving solution by the use of electrical power on water courses and in nearby localities. The machinery of whole towns is run in this way. In the training of young men for a career in the mills, the mechanical colleges are doing much that will go far to equip Southern cotton manufacturing with a superior class of men.

This suggestion of Roosevelt as proconsul of the Philippines seems to have made a great hit with a lot of the high financiers of this country. Only they want him to go there at once and remain permanently.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonals.

S.S.S. PURELY VEGETABLE

S. S. S. is recognized everywhere not only as the best of all blood purifiers and the greatest of all tonics, but the one medicine that can be taken with absolute safety by everyone. Young or old, those in robust health, those whose systems are delicate and run-down, may use it with the best of results, and equally without fear of any unpleasant or injurious effects. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic Dyspepsia, unfavorably affecting the bowels, and so deranging the system otherwise, that even if the original disease has been removed from the system it is left in such a weakened and deranged condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. It is made entirely of the healing, cleansing extracts and juices of roots, herbs and barks gathered directly from the forests and fields of nature, under our own supervision, and when they reach our laboratory contain all their original valuable tonic and blood purifying properties. We offer a reward of $1,000 for proof that S. S. S. contains a particle of mineral in any form. Being made entirely from these vegetable ingredients S. S. S. is absolutely harmless to the system, and while curing disease adds health and strength to every part of the body. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood troubles by removing the cause and supplying the circulation with health-giving and strength-producing qualities.

WILLARD'S COMEDIANS.

Mr. Willard Introduces European Novelties With His Company.

To show that Mr. Henry F. Willard, manager, has enlightened his class of attractions this season, he has taken a step farther than any other manager has ever attempted by adding to his company one of the latest European sensations in securing Captain George Laible and Miss Annie Nelson, two of the smallest Lilliputians in the world. These artists possess talent that is far superior to many that now appear on the boards as stars. These two little artists present a change of vaudeville, operatic and dramatic sketches nightly, and will be seen the opening night with Willard's Comedians in the very laughable comedietta, "Our Boarder."

Mr. Willard has this season made a very careful selection of plays, and will present the Southern sensation, "The White Caps," which is a play that is similar to that of "The Clansman" and this play has received the highest of praise all over. A special spectacular production of "Faust" will also be given, as well as one of

Captain Geo. Laible and Miss Annie Nelson.
With Henry F. Willard's Comedians.

the liveliest farce comedies that has ever been written entitled, "Buster Brown's Holiday."

Special scenery is carried for every presentation and the costuming is given the greatest attention as well as all the effects.

There are a number of novelty specialties introduced, and the moving pictures and illustrated songs are all new and up-to-date. These are all changed nightly.

The Henry F. Willard Comedians will come to the Edwards Opera House for a stay of three nights, giving a special reception matinee on Saturday, after which the Royal Lilliputians will hold a reception to meet all the ladies and children that attend. The opening performance will be "The White Caps" on Thursday night, September 19th. The prices for this engagement will be, night 25, 35, 50; matinee 25 and 35 cents, and seats may be secured now at Miller's.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. J. W. McCollum & Co.

Mrs. F. T. McCormick has gone to Norfolk, Baltimore, Philadelphia and other points, where she will spend a much-needed rest. While absent she will select her fall line of millinery, and it goes without saying that the line will be up to date. Mrs. McCormick will have something to say regarding her new goods when she returns.

Hon. E. C. McLeod of Kendrick, for many years a member of the board of county commissioners of Marion county and one of the political wheelhorses of that county, was in the city yesterday. Mr. McLeod was a member of the board which built the first mile of hard road in old Marion, which now stands among the first counties of the State in this line.

Army Ferguson, an industrious colored citizen of the Micanopy section, was in the city Saturday, and called to have The Sun sent to his address. There is a growing tendency among the better class of colored citizens to read the county papers, and it is an inspiration for good, as it tends to make them more intelligent and more familiar with affairs that to a certain extent concern them.

Prof. W. E. Bell, who for the past year or two was the efficient principal of the High Springs school, has decided to make a change, and has signed a contract with the Perry school, LaFayette county, for the coming year. Professor Bell is one of the best teachers the county has ever had, and it was with a great deal of reluctancy that Superintendent Kelley released him. He has made himself quite popular here, and those who know think a great deal of him both as a teacher and personally.

DREAM AVERTS WRECK.

Confidence in His Vision Engineer Saves His Train.

Harrisburg, Pa., Sept. 14.—Confidence in a dream probably averted a big wreck on the Northern Central road.

Previous to reporting for duty at the round house Engineer Jame B. Burd, who pulls the Buffalo Flyer, leaving Harrisburg at 11:10 p. m., dreamed that his train had run into a landslide at a point between Dauphin and Halifax, 15 miles from here. He told his dream to several round house attaches, but they laughed at him.

Engineer Burd, to ease his mind, determined to run slowly after leaving Dauphin. So speeding his train up to the limit till Dauphin was passed, Burt slowed up, and it was well he did, for at a point some distance north of Dauphin, near the place he had seen in his dream, the engine plough ed into a landslide. Going slowly, the engineer was able to bring his train to a stoy with little or no damage.

Little Change in the Strike.

The telegraphers are still out and there is no likelihood of their coming back.

Followed Sentencing of Nationalist Leader to Prison at Calcutta.

The excitement lasted many hours, great crowds surrounding the vicinity of the court and attacking the police, including some European sergeants.

Other attacks on Europeans are reported, especially in eastern Bengal, where racial feeling is steadily growing.

Who Pays For Your Printing?

Poor printing is a detriment to any buisness, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
